## BIC3000 SmartServe™ Blend-in-Cup Machine

Automatic  
Hands-Free  
Blending

Add loaded cup & walk away

### Increase labor efficiency:

- Since blending is automatic, your staff is free to prepare the next drink or wait on the next customer
- No time is wasted on cleaning — it rinses itself

### Save ingredients:

- No more wasted ingredients left in the blender jar
- All ingredients are served right to the customer

### Improved Consistency

- Use up to 9 different programs that blend your recipes the same way every time — and keep loyal customers coming back.

**Excellent Blending Performance**

Rotating cup holder ensures thorough blending of ingredients. Motor speed can be adjusted according to the type of ingredients for the best blending results.

**Safety Sensors**

Prevent blending unless door is closed.

**Automatic Rinse Cycle**

Saves labor and gives you the option to rinse after each drink or after a number of cycles.

**Quiet Operation**

Keeps noise to a minimum and won't interfere with customer conversation.

**Easy-to-Use Touchpad**

Intuitive controls eliminate guesswork, indicate status, and provide helpful information at a glance.

**Durable Tritan™ Chamber Shield**

Shields staff from the blending agitator and prevents messy splashing.

**BIC3000 SMARTSERVE™ BLEND-IN-CUP MACHINE**
